StudyVance AI Academy

Level 1 AI Explorers

Learner workbook

Grade 4 to 6 | Six guided lessons | No learner AI account needed

Learner name _____ Grade _____

Teacher _____ Start date _____

Welcome AI Explorer

You will discover what AI does, practise clear instructions, check answers and make an illustrated story. Your teacher operates any AI tool. You use your own ideas and decide how to improve your work.

Our class rules

- Keep passwords, addresses, phone numbers and private pictures out of prompts.
- Use fictional characters for stories.
- Check important facts before using them.
- Ask the teacher when you are unsure or uncomfortable.
- Explain your own work and acknowledge help truthfully.

My personal information on this workbook stays with my teacher. We do not type it into an AI tool.

Lesson 1A Meet AI

Starting question 1: What do you think AI is?

_____

_____

Starting question 2: What might AI help someone do?

_____

_____

Read with your teacher

AI is computer software that learns patterns from examples. Some AI can create text or pictures from instructions. AI is not a person, and its answers can be wrong.

Sort the examples

Write AI or ordinary software. Use the clues in each example.

Example	My answer	My reason
A basic calculator follows fixed steps to work out 6 × 4.		
A system trained on labelled animal pictures predicts whether a new photo shows a cat.		
A kitchen timer rings after ten minutes.		
A text system learns patterns and creates a new story from instructions.		

Can we trust every answer

Practice statement: “AI is always right because computers never make mistakes.” Do you agree? Why?

_____

_____

_____

Lesson 1B Keep private information safe

These are pretend examples. Do not write a real password, address or phone number here. Circle the risky parts and rewrite the prompt safely.

A. “My full name is [real name], I live at [home address], and my number is [phone number]. Write me a story.”

_____

_____

B. “Write a story about a fictional rabbit called Pip who finds a lost kite.” Is this suitable? Explain.

_____

_____

C. “My password is [real password]. Can you help me remember it?” What should we do instead?

_____

_____

D. “Here is another child’s photo. Write an embarrassing story about them.” How could we make a respectful fictional task instead?

_____

_____

Exit ticket

AI can _____

AI may _____

One privacy rule is _____

Optional family task: explain one useful AI activity and one rule. No app needed.

Lesson 2A Build a clear prompt

A prompt is a question or instruction given to an AI tool. Use Task + Details + Format.

Part	What it tells the tool	My example
Task	What to do	
Details	Topic, audience and useful limits	
Format	How the answer should look	

Spot the parts

“Write three short sentences for a Grade 4 reader about a fictional robot rabbit helping an animal shelter. Use simple words and a friendly tone. Do not include real names.”

Task _____

Details _____

Format _____

Improve these prompts

1. “Tell me about space.” Make the task, details and format clearer.

_____

_____

_____

2. “Make a story.” Include a fictional character, audience and length.

_____

_____

_____

Lesson 2B Compare and improve

Requested task: three short sentences about a fictional robot rabbit helping an animal shelter, for a Grade 4 reader.

Prepared reply A

“Animals are found in many places. They can be large or small. People like animals.”

Prepared reply B

“A robot rabbit carried blankets to the animal shelter. It helped the keeper fill the water bowls. At sunset, every animal had a cosy place to rest.”

Which reply better follows the task? Explain two reasons.

_____

_____

_____

If I ask for three bullet points but receive one long paragraph, what requirement has been missed?

_____

_____

Write your own prompt

Choose a story, an explanation or a list. Include a task, useful details and a format. Use no private information.

_____

_____

_____

_____

Partner check: Task clear? Yes / Improve Details useful? Yes / Improve

Format clear? Yes / Improve Private information removed? Yes / Improve

One improvement I made _____

Lesson 3A Become an AI detective

Read → Compare → Decide → Correct. Use the fact sheet as evidence. A confident answer is not proof.

Moon fact sheet

- A. The Moon does not make its own visible light. It reflects sunlight.
- B. The Moon orbits Earth.
- C. Earth has one natural moon.
- D. The Moon has no breathable atmosphere for people. People need life-support equipment.

Check each claim

Write supported, contradicted or not enough information. Add a fact-sheet letter when there is evidence.

Claim	Decision	Evidence letter
1. The Moon makes its own light.		
2. The Moon travels around Earth.		
3. Earth has two natural moons.		
4. People can breathe normally on the Moon without equipment.		
5. A purple dragon lives on the Moon.		

Which claim needs more evidence than this fact sheet gives us?

_____

_____

Could a purple dragon be in a fictional story? Why?

_____

_____

Lesson 3B Correct the answer

Deliberately flawed practice paragraph

“The Moon makes its own light. It travels around Earth. Earth has two natural moons. People can breathe normally on the Moon without equipment. A purple dragon lives there.”

Rewrite the paragraph using only statements supported by the fact sheet.

_____

_____

_____

_____

_____

_____

Explain your check

One claim I corrected _____

My evidence was _____

Why is asking the same AI again not enough to prove a fact?

_____

_____

_____

Exit ticket

A new reply says: “All Moon rocks feel soft.” Does our fact sheet confirm this? What should we do?

_____

_____

_____

Lesson 4A Plan an illustrated story

Final brief: write 6 to 8 sentences for a Grade 4 reader. Include a fictional character, setting, problem and kind solution. Add one matching drawing. Keep your first draft and explain your changes.

My fictional character _____

My setting _____

The problem _____

_____

A kind solution _____

_____

Prompt for the teacher or paper practice

Write a clear prompt based on your plan. The teacher will operate any AI tool.

_____

_____

_____

_____

Review this prepared draft

“Pip the robot rabbit worked at an animal shelter. One morning, a kitten’s blanket was missing. Pip shouted at the kitten for losing it. Then a magic wand appeared and made a hundred blankets. The kitten flew into space. Everyone clapped.”

Shared brief: a kind story at an animal shelter, with no magic. Circle two parts that need changing. Explain one problem.

_____

_____

Lesson 4B Improve the story

Rewrite at least two sentences from the prepared draft, or improve two sentences in your own first draft. Your changes should help the story meet the brief.

_____

_____

_____

_____

_____

One change I made and why it helps

_____

_____

Sketch one scene

Draw on this space or attach a separate sheet. Make the drawing match your story.

My scene caption _____

Record assistance honestly

Circle the option that happened: Prepared practice draft / Teacher-operated live AI / My own first draft without AI

I used help for _____

My own contribution was _____

Keep this page and your first draft for Lesson 6.

Lesson 5A Ask for help that teaches

Which helps you learn more? Circle one and explain.

A. “Give me the complete answer to copy.”

B. “Give me one hint, then let me try.”

_____

_____

Try an equal groups problem

24 ÷ 3. Hint: draw three circles and share 24 dots equally between them. Draw here, or use counters and describe your groups.

_____

_____

_____

_____

24 ÷ 3 = _____ because _____

Check a wrong explanation

Practice reply: “24 ÷ 3 = 7 because 3 × 7 = 24.”

3 × 7 really equals _____. The correct answer to 24 ÷ 3 is _____.

How did you check it?

_____

_____

Independent check

Work without AI or partner help. You may use counters. 18 ÷ 3 = _____

Explain your method.

_____

_____

_____

Lesson 5B Learn from a reading passage

Read with your teacher

“Lebo took a small watering can to the school garden. The soil near the beans felt dry. Lebo watered the soil slowly, then placed a label beside each row. Before leaving, Lebo closed the gate to keep the goats out.”

1. What felt dry?

_____

_____

2. Why did Lebo close the gate?

_____

_____

3. “Lebo left the gate open.” True or false? Give words from the passage as evidence.

_____

_____

4. “The watering can was red.” Does the passage support this? Explain.

_____

_____

A prompt that supports learning

Complete: “Using only this passage, ask me _____. Wait for _____.”

My reflection

One way a hint helped me _____

One thing I could do independently _____

Optional family task: explain a hint strategy and solve 12 ÷ 3 on paper.

Lesson 6A Finish your story

Use your Lesson 4 plan. Write your final 6 to 8 sentence story below, or attach a separate sheet. Attach the illustration and first draft.

Story title _____

_____

_____

_____

_____

_____

_____

_____

_____

_____

Assistance note

Truthfully explain any prepared draft or teacher-operated AI help and your changes. If no AI was used, say so.

_____

_____

Partner review before presenting

- Character, setting, problem and kind solution are clear.
- There are 6 to 8 sentences and a matching drawing.
- Two sentences have been improved and I can explain a change.
- There are no real personal details in the story.
- The assistance note describes what actually happened.

Presentation: “My story is about … I changed … because … My own contribution was …”

Lesson 6B Show your explorer skills

Answer independently. Your teacher may read the questions aloud. No AI or partner help.

1. A reply says “AI is always right.” What should we remember?

_____

_____

2. Which prompt is safer? Circle A or B and explain.

A. “Here is my password. Use it in a story.”

B. “Write a story about a fictional rabbit finding a kite.”

_____

3. Improve “Make a story.” Include a task, useful details and format.

_____

_____

_____

4. Fact: Earth has one natural moon. A reply says Earth has two natural moons. Is the reply supported or contradicted? Give the correction.

_____

_____

5. Why is asking for a hint usually better for learning than copying a complete answer?

_____

_____

My reflection

I am proud that I _____

I still want to practise _____

Teacher feedback _____

_____
